

YOU'VE NEVER EXPERIENCED COLOR QUITE LIKE THIS

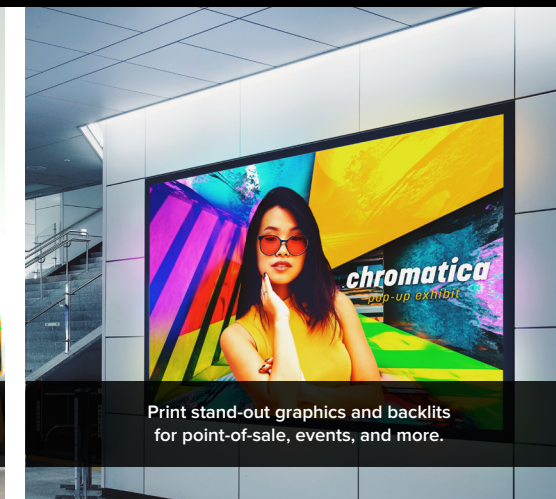

With exceptional machine performance and print resolution, plus new 8-color ink options, the new RF-640 8-Color offers a whole new world of color reproduction and print quality. With the widest color gamut in its class, you can reproduce ultra-vivid color, hit specific brand colors, and produce brilliant photorealistic imaging.

Create large format graphics for tradeshows, store interiors, sales promo's and more.

Create vehicle graphics with a whole new level of color complexity and detail.

Print stand-out graphics and backlights for point-of-sale, events, and more.

The 8 Color Print Difference

With its unique configuration of CMYK plus Light Black, Red, Green and Orange (CMYKlK + ReGrOr), you can expand your color capabilities and effortlessly configure precise colors for all major industry swatches.

Highlights

A gold-plated print head reduces static, optimizes print quality, and virtually eliminates chromatic banding.

Includes a take-up system for unattended printing and high-speed print stability.

Seamlessly pair your RF-640 8-Color printer with a Roland cutter to contour-cut labels, decals, and more.

A built-in two-stage heater quick-dries prints and precisely controls the correct heat for each media.

Get email alerts on your computer or smart device when ink is low or a job is complete, with Roland OnSupport.

Easily locate and download profiles from Roland and other major media profile providers at the Roland Profile Center.
